

NEWSLETTER n° 7

QUALITY AND DESIGN, EPROSE PRIORITIES

- NEWS -

In this new newsletter, a large number of new tools designed at the request of craftsmen to facilitate you the work, with a certain ergonomics.
Tools to have more place on the workbench and this last good property.
Thanks to its equipments, both in machines and in design (FAO, CAD, PLM) Eprose diversifies by realizing specific equipments for the craft leather but also for the medical and other business sectors and always realized in his workshop THIERNIS...

- NOVELTIES -

Box for needles

Box for needles in wood with magnet integrated to easily pick up the needles and cork to put the needles on during the work in progress.
This box is magnetized to all metallic support (sewing machine, workbench...).
It screws and unscrews easily, doesn't take place on the workbench.
The needles are cleaned without any risk of damage.
If the needle fall from the box, the magnet allows to keep it in the box and to avoid a loss during the opening.

Right compass

This compass with dry tip allows to draw a line parallel to the edge of a piece of leather.
You can also realize circles and other patterns.
The screw allows to increase or reduce the space between both tips.
Length of 110 mm and the longest distance is 95 mm.

RANGE of tweezers

Tweezers in inox to seize everything precisely.
Available in different sizes and shapes.

Extension of range of hollow round punches delivered in box or to the request
 Ø 11 to 30 mm

Removable black anodized aluminium handle GM

Handle for hollow punches GM

Box of storage unit in wood by even or odd diameter

**BLOCK
 Cut / Strike**

Block reversible : CUT—STRIKE

- One cardboard side, to use with cutting tools (hollow punches, round knife, skiving knife ...)
- The other granit side is to adorn the leather, bang the sewings...

The block must be used on a stable surface for best results.
 Two tools in one and a saving of place on the workbench.

Interchangeable and recyclable cardboard, (sell by 10)
