

ROUND KNIFE

Hand tool for cutting different surfaces like leather.

The main body is made up of a semicircular tempered steel blade, half sharpened. Both parts of the handle and maulstick are made of boxwood, fixed directly on the blade.

Dimension: 150 x 140 mm

Handle length: 60 mm

Weight: 210 gr

Ref. 300-CAP-001

How it works

The short handle is specially designed for fitting the palm of the hand and the maulstick is for strengthen the cutting.

The protective case can be adjusted at the desired position for work and can be completely closed when not in use.
