

RETURN THREAD TOOL

Return thread tool EPROSE

This tool allows you to return your thread between the leather and the lining of your piece. Quick interchangeability of the needles, tightening system using pliers with an integrated anti-rotation system for the complete immobilization of EPROSE's needles. The spiral on the ferrule is made to coil the thread and stretch it while making the final knot. Handle in French boxwood.

Return thread tool
Weight : 40 gr
Dimension : 115 x 26 mm
